Something for everyone.....

With many miles of trails to choose from, you're certain to find a place for an enjoyable walk or hike. You can also experience some of our trails in an exciting new way. Green Lakes has implemented a Multiple Use Trail Program to study the effects of combining foot travel and mountain bike use on certain trails. Mountain bikes are allowed only on designated trails, Park roads and paved service routes. Read the descriptions of the trails, then unfold this brochure for a full map of the Park. Choose the trail that's right for you. Be sure to review the terrain and difficulty levels for the trails. As you review the distances for the trails, remember that the average hiker travels at a rate of under two miles per hour. Please help us monitor the success of the Program. Pick up a comment sheet at the Park Office and share your experience with us.

Green Lake Trail

1.88 Miles Blue Blaze **Foot Travel Only**
Easy: Flat

Walk along the shoreline of this spectacular lake and enjoy one of the most popular trails at the Park. Take in the soothing view of the turquoise water and appreciate the glacial history of Green Lake.

Round Lake Trail

.92 Miles Red Blaze **Foot Travel Only**
Easy: Relatively Flat

This trail circles our National Natural Landmark and offers excellent birding opportunities. To get to Round Lake, you'll walk part of the Green Lake Trail to the far end of the lake, then use one of the connecting trails to get to Round Lake.

Old Growth Trail

2.66 Miles Orange Blaze Multiple Use
Difficult: Very steep hills, rough trail surface

This trail takes you through an old growth forest where some of the trees are estimated to be almost 300 yrs. old. The trail starts at the trailhead and passes the Livingston Picnic Area and Pine Woods campground. It joins the Rolling Hills Trail for a short stretch, where it becomes multiple use, then heads into the forest behind Round Lake. Bikers may park their bikes at the bike rack and walk down to see Round Lake. The trail crosses a footbridge, then heads uphill toward Golf Course Maintenance. Here, bikers can connect with the Power Line Trail. Hikers can continue through the woods and meet up with the Brookside Trail to loop back to the footbridge.

Power Line Trail

.67 Miles White Blaze Multiple Use
Difficult: Steep hills, some rough trail surfaces

If you want a challenge, this trail is for you! It offers the most strenuous hike or ride in the Park. It begins off the Golf Course Road, passes behind the Golden Acres development, then follows the utility right of way. Hikers can test their endurance on the Hernia Hill Bypass and connect with the Farmer's Hill Trail. The multiple use segment ducks into the woods at the bottom of Hernia Hill to connect with the Old Growth Trail.

Brookside Trail

.90 Miles Blue Blaze **Foot Travel Only**
Easy: Flat

The Brookside Trail starts off the Power Line Trail and ends at the Brookside Development. Listen for the melodic sounds of the Wood Thrush and other birds in the forest canopy.

DEER RUN TRAIL Yellow Blaze 2.12 Miles
GC Golf Course Connector White .18 Miles

Rolling Hills Trail

.59 Miles Yellow Blaze Multiple Use
Moderate: Moderately hilly

Choose the Rolling Hills trail if you want to see a little of everything. The trail begins at the West beach trailhead. You'll walk or ride through open fields, woods and past the Rolling Hills Campground. This trail offers excellent birding opportunities.

Farmer's Hill Trail

1.37 Miles Blue Blaze Multiple Use
Easy: Mostly flat, grass & gravel surface

For a longer ride, try the Farmer's Hill Trail, which begins off the Rolling Hills Trail. This area was once the Holden family farm. As you wind through open fields and meadows, you may see hawks, wild turkey or deer.

Overlook Trail

1.03 Miles Red Blaze Multiple Use
Easy: Mostly flat, grass and gravel surface

You can pick up the Overlook Trail off the west side of the Farmer's Hill Trail. You'll see the old barn foundation and scenic overlook near the western Park boundary.

Vista Trail

1.36 Miles Green Blaze Multiple Use
Moderate: Moderate hills, grass and gravel surface

The Vista Trail begins at the intersection of the Power Line and Farmer's Hill Trails. This area was once part of the Teske farmstead and overlooks Minoa Lakes at the northern Park boundary. The trail dips into a ravine, then ends at the Overlook Trail.

NC/SC Connector Yellow .16/.14 Miles
PLS Powerline Segment White .14 Miles
LC Lake Connector White .15 Miles
